

PERFORMANCE IN EVERY LAYER

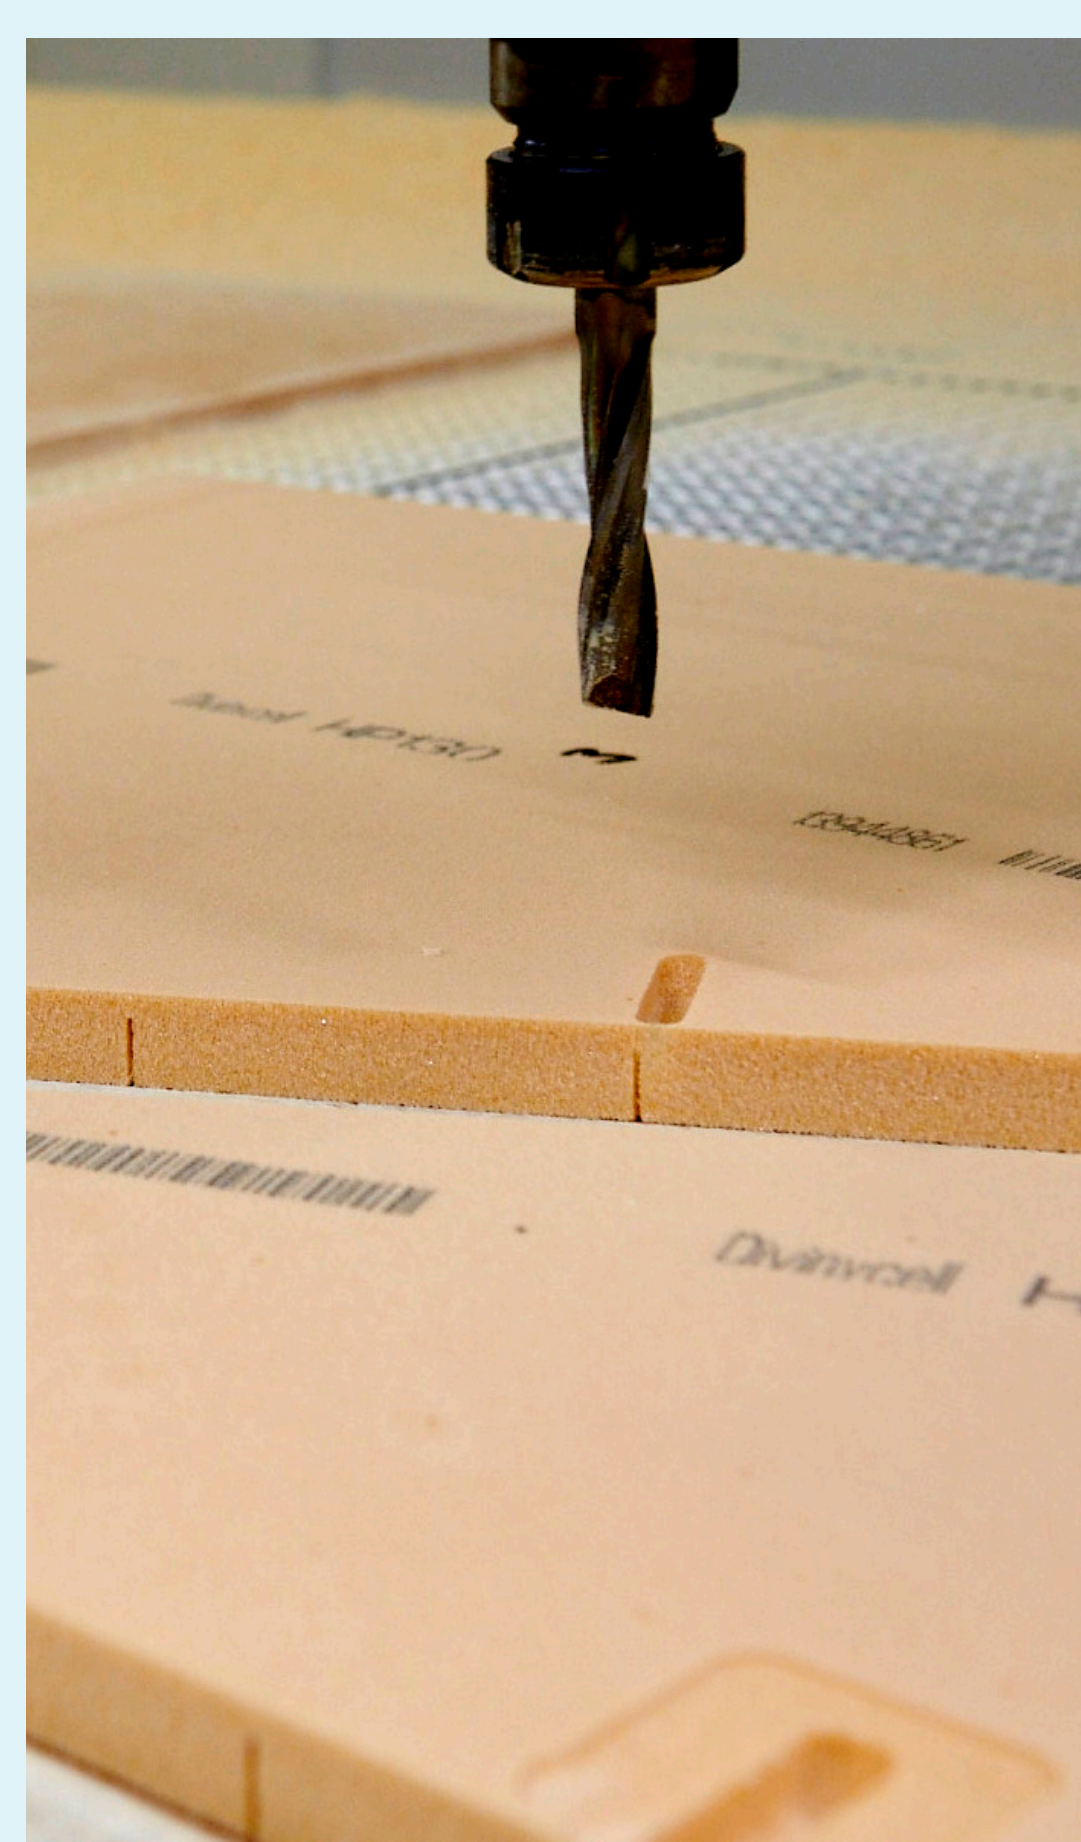

Services for improved efficiency and sustainability

With decades of technical expertise, our services optimize the strength and value of composites and your applications.

FINISHING

- ✓ Flow – grooved and perforated sheets
- ✓ Form – curved sheets
- ✓ Flow & Form – a combination for top results

KITTING

Standard kits – pre-cut core panels using standard sheets and finishes

Advanced kits – maximum weight saving, performance and CO₂ reduction

ENGINEERING SERVICES

- ✓ Proactive product and process support
- ✓ Innovative kit design and engineering
- ✓ Industry-leading composite consulting services
- ✓ Hands-on training
- ✓ Process support & optimization
- ✓ Comprehensive testing
